Hi Anna,

Below is an email from a customer with a question about the gloves.  
Please confirm if these are a vinyl blend or not.  
Also, please send me again the specs and mixture of the gloves

**We are just getting you set up in my system to send a PO. Also we have a 2<sup>nd</sup> truckload lined up.**

**But I just noticed something. On the spec sheet you sent, there is a word blanked out in front of Nitrile. Are these legitimate Nitrile gloves? Or are you selling a blend? Please be honest with me.**

**Also, can you advise the mil thickness of the gloves. Should be 3.5 mil but I want to double confirm.**

**Samples will help to verify when you send on Monday. Send me a case of 10 boxes please. I will pay for it, no problem.**
